

## Battle River District Proposed Youth Soccer Curriculum

The purpose of this curriculum is to help standardize “best practice” soccer training throughout Battle River. The Technical programs within BRSA work to educate as many coaches as possible. As past history shows, we face a constantly changing coaching population and it is the belief of BRSA that we need to do more to connect with our Coaches on a consistent basis.

This curriculum will serve as a bridge for those connections in that Community Club leaders can disseminate this curriculum to all Coaches in order to develop coaching consistency within age groups and a developmental progression across age groups. The curriculum can stand on its own to teach all Coaches what is best for developing players. At the same time, both Community Club leaders and all member Coaches can utilize the District Head Coach and the Competitive Club for constant consultation or clarification whenever needed.

Please understand that every child varies in their development and these are strictly guidelines. Guidelines are meant to be flexible as all players of the same age are certainly not at the same developmental level. It is important we challenge all Players at a level that befits their ability.

It is my hope that all Community Clubs will use this curriculum to guide their Coaches and to help insure our Players are being provided the best soccer environment possible. Your feedback is also essential to the future development of the sport of soccer in our District; I look forward to hearing your comments and suggestions for improvement.

Warmest regards,

Wayne Kaiser  
ASA District Head Coach  
Battle River Soccer Association
